

FAHEEM UD DIN ZIA

Frontend & Full-Stack Developer

faheemchh779@gmail.com | +92 303 9967121 | [linkedin.com/in/faheemch22](https://www.linkedin.com/in/faheemch22) | portfolio-two-ivory-63.vercel.app | github.com/ChFaheem22

SUMMARY

Software Engineering student specializing in frontend and full-stack web development with React.js, Next.js, and the MERN stack. Experienced in building responsive, component-based user interfaces and RESTful APIs, converting design mockups into production-ready code, and collaborating in Git-based version control workflows. Seeking a frontend developer internship/role to contribute to real-world, user-facing products.

TECHNICAL SKILLS

Languages & Frameworks: JavaScript (ES6+), React.js, Next.js, Node.js, Express.js, HTML5, CSS3, Vercel

Databases: MongoDB, MySQL, Firebase

Concepts & Tools: RESTful APIs, Responsive Web Design, Component-Based Architecture, Git/GitHub, Agile Collaboration, OOP, Data Structures & Algorithms

Professional: Adaptability, Teamwork, Time Management, Effective Communication

EXPERIENCE

Frontend Developer Intern | Humanity Alliance Organization, Lahore

June 2025 – September 2025

- Built responsive, cross-browser user interfaces with HTML5, CSS3, JavaScript (ES6+), React.js, and Next.js, following component-based architecture best practices
- Translated Figma design mockups into pixel-accurate, functional web pages, improving UI consistency and reducing design-to-dev handoff time
- Collaborated with a development team using Git/GitHub for version control, code review, and feature branching in an Agile workflow

PROJECTS

QuickServe — Full-Stack Service Booking Platform |

Technologies: React.js, Node.js, Express.js, MongoDB (MERN Stack)

- Developed a full-stack service marketplace connecting users with local providers, including user authentication, service listings, real-time booking, and role-based dashboards
- Implemented payment method integration and a ratings/reviews system end-to-end across backend and frontend
- Authored a white-box testing suite (70 test cases across 6 techniques) to validate backend reliability

Car Rental Management System |

Technologies: MySQL, MongoDB

- Designed and implemented a relational database (ERD + schema) in MySQL to manage vehicle rentals, customers, and bookings
- Built a parallel NoSQL data model in MongoDB, comparing schema design trade-offs for structured vs. unstructured data handling

EDUCATION

B.Sc. in Software Engineering | Riphah International University

2023 – Current

- Key Studies: OOP, Data Structures, Algorithms, Web Development, Databases, Quality Testing, Project management

ICS (Physics) | Punjab College

2021 – 2023

CERTIFICATES & LANGUAGES

Certificate: Software Engineering: Modeling Software Systems Using UML — The Hong Kong University of Science and Technology (January 2025)

Languages: English, Urdu, Punjabi (basic)
